

HOLMAN ENGINEERING

Refurbishment of Scoreboards

Holman Engineering not only design and manufacture new products, but also carry out refurbishing programs for existing equipment. The two Sydney Aquatic Center scoreboards, and the Sydney Athletic Center scoreboard (Sydney's 2000 Olympic Venue), have recently been refurbished by Holman Engineering.

The Sydney Aquatic Center scoreboard refurbishment involved the replacement of over 40,000 light globes, 800 fans, and refurbishment of 320 printed circuit boards.

The Sydney Athletic Center scoreboard refurbishment involved the reconditioning of over 800 Printed Circuit board modules, and replacement of over 200 magnetic flip dot displays.
